# HAND WASH

Cdt. Jayashree.

VM18737

IT A

TNSWA602609

## Introduction :-

We all must have heard the phrase - "Prevention is better than cure". Handwash is an act that specially suits this phrase as a perfect example. It prevents a number of diseases and saves lots of lives.

## How does Hand wash works?

\* Germs settle down on your hands when you touch a surface, play or shake hands, etc. These germs can cause diseases if they enter your body through entry holes like mouth, nose, eyes, etc.

\* When you rub soap on your palm, it greases your palm with froth and bubble, so that the germs get rinsed off with water, when you bring your hand under the tap. As simple as that! It is a simple yet very essential act that prevents germs from entering into your body and stay healthy.

FIT INDIA MOVEMENT

Name of the Event	FIT INDIA MOVEMENT
Department	NCC ARMY WING (SD/SW)
