STUDENT FEEDBACK – 2021-22

SUMMARY, SUGGESTIONS AND ACTION TAKEN REPORT OF THE STUDENT FEEDBACK – 2021-22

As per the feedbacks received from the students, the major points were presented as a summary below:

- 1) Provisions of more practical sessions with use of ICT tools for easier and better understanding.
- 2) Fair and Just in transparency of publications of results of every internal assessment.
- 3) Provisions to permit students with on duty to attend internships, participate in technical contests etc.,
- 4) Enhancement of guest lectures or workshops through experts from industry.
- 5) Enhancement of the growth of the student in the field of research.

SUGGESTIONS:

- The students suggested for more usage of ICT tools in presentation of the concepts for easy understanding
- The students suggested to share the assessment marks at the end of the each internal assessment for them to know their status.
- The students suggested for long distance industrial visits and companies suitable to their course in that particular semester.

- The students suggested to provide On-Duty to attend internships.
- The students also suggested to consider on duty in case the company permits and provides the extension period in internship during the semester holidays and up to the start of the semester classes.
- The students suggested to permit them to participate in technical contests in and around with on duty facility.
- The students suggested to conduct value added courses to enhance their technical knowledge apart from the academia.
- The students suggested to provide time to prepare for the Internal Assessments instead of having 2 courses per day.

ACTION TAKEN:

- Based on the feedback received from the students, efforts are being taken by the institution in various verticals such as Higher Education, Entrepreneurship Cell, Placement and Research.
- The institution has signed more number of MoUs for all the departments which indeed not only increases the room for placements, internships etc., but also using such MoUs, it was suggested to develop more interaction for the students from the industry.
- The institution, as a policy matter has decided to conduct Guest lectures/Workshops using experts from the industry.
- Workshops are conducted across all departments and experts from the industry are invited as resource person.
- The students were encouraged to participate in more innovative and technical contests and the institution has also increased its focus in promoting innovative

activities among the students and developing products that are suiting the industry needs.

- As requested by the students to permit them to participate in competitions outside the state, students are provided on-duty with TA & DA to participate in events within the state and outside the state. Technical or Non-Technical, Co-curricular or Extra-curricular, students are encouraged to participate in such events and the institution supports the students with on-duty with TA & DA, for the students to participate in events within the state and outside the state.
- Students are provided with On-Duty to attend Internships and the Tie-up of the institution with Internshala has provided the students to get stipend during their internship period.
- Value-added courses are conducted by all the departments and it is also ensured that one value-added course is mandatorily conducted by every department in a semester and students attend it without fail. Assessment is conducted at the end of the course and it is also ensured that students participate with full passion and successfully complete the course.
- As per the request received from the students, internal assessments are changed to one per day instead of two, and provision to prepare for the same is also provided.
