SUMMARY, SUGGESTIONS AND ACTION TAKEN REPORT OF THE STUDENT FEEDBACK ON CURRICULUM – 2023-24

Comprehensive Report on Student Feedback

The purpose of this report is to analyze and summarize the feedback provided by students on various aspects of their academic experience. The areas covered include the curriculum, extent of syllabi covered, course delivery, usage of teaching aids, opportunities provided, fairness in assessment, opportunities for out-of-classroom learning, overall learning experience and suggestions given by students, alongside the action taken by the institution in response to this feedback.

1. Feedback on Curriculum:

Summary of Student Feedback:

- Students generally expressed satisfaction with the relevance and depth of the curriculum. However, some students suggested that the curriculum could be updated more frequently to align with current industry trends and emerging technologies.
- A few students mentioned that certain subjects felt outdated or disconnected from real-world applications.

Suggestions Given by Students:

- To integrate more current and industry-relevant topics.
- To periodically update the curriculum based on advancements in the field.

Action Taken by Institution:

- The institution has established a curriculum review committee to periodically evaluate and update the syllabus to incorporate emerging trends and industry needs.
- The institution has initiated the process of consultation with industry experts and alumni to ensure the curriculum remains relevant and forward-looking.

2. Extent of Syllabi Covered:

Summary of Student Feedback:

- The majority of students felt that the syllabi were adequately covered within the prescribed time. However, some students felt that certain topics were rushed due to time constraints, especially in specialized courses.

Suggestions Given by Students:

- To allocate more time for complex topics or an extension of certain courses.
- To offer remedial sessions for students who may require additional support on specific topics.

Action Taken by Institution:

- The institution has implemented periodic feedback sessions to monitor the pace of syllabus coverage and has adjusted teaching schedules for more time-intensive courses.
- Additional tutorial and remedial classes have been introduced for challenging topics.

3. Course Delivery:

Summary of Student Feedback:

- Course delivery was widely appreciated for its clarity and structure, with a balanced mix of lectures, discussions, and practical sessions. However, some students indicated that the teaching methods could be more interactive and engaging.

Suggestions Given by Students:

- To incorporate more real-world case studies, guest lectures, and interactive sessions.
- To use more modern teaching methods such as flipped classrooms or group discussions to enhance engagement.

Action Taken by Institution:

- Faculty members have been encouraged to adopt a blended learning approach and incorporate more interactive teaching methods.
- Guest lectures and industry expert sessions are being organized more frequently to bridge the gap between theory and practice.

4. Usage of Teaching Aids:

Summary of Student Feedback:

- The use of teaching aids such as presentations, videos and online resources was largely appreciated. However, students suggested a more frequent use of multimedia tools to facilitate better understanding, especially for abstract or complex topics.

Suggestions Given by Students:

- To increase the use of multimedia tools like interactive software, virtual simulations and educational platforms.
- To greatly emphasise on digital resources such as online tutorials and course materials.

Action Taken by Institution:

- Faculty development programs have been conducted to enhance the use of teaching aids and digital resources in class.
- The institution has invested in advanced technological tools and platforms to support both in-class and remote learning environments.

5. Opportunities Provided:

Summary of Student Feedback:

- Students generally felt that there were sufficient opportunities for academic growth, including internships, research projects and extracurricular activities. However, a few students noted that more opportunities for hands-on projects and industry interaction would be beneficial.

Suggestions Given by Students:

- To arrange more internships, industry visits and provide practical assignments related to the course.

- To collaborate with external organizations for real-world exposure and research opportunities.

Action Taken by Institution:

- New partnerships with industries have been established to provide students with more internship and project-based opportunities.
- Increased focus on organizing industrial visits, workshops, and student exchange programs.

6. Fairness in Assessment:

Summary of Student Feedback:

- Most students felt that assessments were fair and transparent, with a clear link between the taught material and the exam content. However, some students expressed concerns over the subjectivity in grading and the lack of timely feedback.

Suggestions Given by Students:

- To assure clearer rubrics and grading guidelines to ensure consistency in evaluation.
- To ensure timelier feedback after assessments to support student improvement.

Action Taken by Institution:

- The institution has implemented standardized rubrics for all assessments to ensure transparency and fairness in grading.
- Faculty members have been instructed to provide feedback within a specified time frame after assessments to aid student learning.

7. Opportunities for Out-of-Classroom Learning:

Summary of Student Feedback:

- Students felt that there were adequate opportunities for out-of-classroom learning, such as workshops, seminars, and study tours. However, some students suggested that these opportunities should be more diverse and frequent.

Suggestions Given by Students:

- To provide more interdisciplinary workshops, cultural exchange programs and career-oriented seminars.
- To ensure expansion of fieldwork and practical exposure beyond the classroom setting.

Action Taken by Institution:

- The institution has introduced a broader range of extracurricular activities, including interdisciplinary events, cultural exchange programs and career-oriented workshops.
- Increased funding and support for student-led initiatives and projects outside the classroom.

8. Overall Learning Experience:

Summary of Student Feedback:

- The overall learning experience was positive, with students appreciating the supportive environment, availability of resources and collaborative atmosphere. Some students, however, indicated that there was a need for more personalized support in terms of academic counselling and career guidance.

Suggestions Given by Students:

- To ensure more individualized mentoring and career counselling sessions.
- To provide enhanced guidance for research-based courses and career development initiatives.

Action Taken by Institution:

- A dedicated academic counselling and career guidance center has been established to provide personalized support to students.
- Mentorship programs have been introduced, pairing students with alumni and industry professionals for career development.

9. Summary of Action Taken by the Institution:

- **Curriculum Updates:** Regular reviews and updates to ensure relevance to industry trends.
- **Syllabi Coverage:** Adjustments to schedules and additional remedial classes for complex topics.

- **Course Delivery:** Adoption of blended and interactive learning methods, including guest lectures.
- **Teaching Aids:** Increased use of multimedia and digital platforms.
- **Opportunities:** Strengthened industry partnerships for internships and projects, with an emphasis on hands-on learning.
- **Assessment Fairness:** Standardized grading rubrics and improved feedback mechanisms.
- **Out-of-Classroom Learning:** Expanded extracurricular activities and field-based learning.
- **Overall Learning Experience:** Enhanced career counselling and mentoring services.

The student feedback indicates a generally positive learning experience with some constructive suggestions for improvement. The institution has shown a proactive approach in responding to the feedback by implementing changes that focus on enhancing the overall academic experience, fostering industry connections and improving support systems for students. Continuous monitoring and adaptation of strategies will further improve the learning environment and outcomes for students.
